Download the app to your iPhone or iPad and use iGO Navigation on the go to plan your road trips, navigate your way, and discover new destinations. Features Unlock your inner explorer iGO Navigation is the world's most innovative app for travel and it makes road trips easier and more enjoyable than ever before. Use it to: Plan your journey Travel to all the major cities and destinations in the world Access road maps of all 50 states Access more than 30,000 road destinations (you can learn more about the included destinations at www.igo.com/destinations) Listen to iGO navigation voice directions in English, Spanish, French, German, Chinese, Portuguese, Italian, Russian, Indonesian, Thai and more Explore the world with unlimited access to over 30,000 road destinations Find out where to eat, what to do, and how to see the world See exotic animals, such as elephants, tigers, and bears Explore different cultures Learn more about the many different destinations you can reach with iGO Navigation Book tours Use iGO Navigation to book your dream vacation Search for and book destinations Use iGO Navigation to find the best hotels, attractions, restaurants, and shopping Add unique destinations that are often off the beaten track Book your trip right from the app Tips and Tricks Turn off your phone's Wi-Fi. Most cellular network providers allow you to turn off your phone's Wi-Fi so it will not use up your data plan. This is most important if you are using 3G/4G. Turn off any apps that you are not using, such as navigation, and let iGO Navigation do the rest. Let iGO Navigation do the hard work of finding and displaying the best route for 82157476af
